Proposal Content

1. Organisation Overview

Name:

Signature Cuts & Beauty

(Nicka's Touch Salon & Romeo The Barber)

Business Description:

Signature Cuts & Beauty is a growing hair and grooming business operating in Vanderbijlpark and Braamfontein, South Africa. The business combines professional braiding services by Nicka's Touch Salon with modern barbering services by Romeo The Barber.

The business started as a small local salon and barbershop focused on quality service, stylish looks, and customer satisfaction. Over time, it has developed a strong reputation for neat braiding, clean fades, precision haircuts, and professional grooming services.

Today, the business serves a diverse range of clients including students, working professionals, families, and local residents.

Mission Statement:

To provide high-quality, stylish, and affordable hair and grooming services that build confidence and reflect personal identity.

Vision Statement:

To become a trusted and leading beauty and grooming brand in South Africa known for creativity, excellence, and outstanding customer care.

Target Audience:

- Young adults and students
- Working professionals
- Men seeking barber services
- Women interested in braiding and styling
- Families and local residents in Vanderbijlpark and Braamfontein

2. Website Goals and Objectives

Goals:

- Increase online visibility of the business
- Attract new customers from surrounding areas
- Showcase hairstyles, braids, and barber work
- Build a professional online brand image
- Allow customers to contact the business easily
- Promote services and customer trust

Key Performance Indicators (KPIs):

- Number of website visitors
- Number of contact form submissions
- Customer calls and inquiries
- Social media engagement
- Customer return rate
- Service bookings

3. Current Website Analysis

Strengths:

- Strong local reputation
- High-quality braiding and barber services
- Loyal customer base
- Friendly customer service

- Attractive service portfolio

Weaknesses:

- No previous professional website
- Limited online visibility
- Services not clearly displayed online
- No dedicated contact platform

Areas for Improvement:

- Create a professional website
 - Showcase services with images
 - Add contact page and inquiry form
 - Improve credibility and branding
 - Increase mobile accessibility
-

4. Proposed Website Features and Functionality

Essential Pages:

- Home Page
- About Us Page
- Services Page
- Reviews Page
- Contact Page

Functionality:

- Responsive mobile-friendly design
- Navigation menu across all pages
- Contact form for customer inquiries

- Customer review section
 - Service gallery with images
 - Professional branding
 - Call-to-action buttons such as Book Now
 - Phone number links for direct calling
-

5. Design and User Experience

Overall Design Style:

The website uses a clean, stylish, and modern design that appeals to both male and female customers. It creates a professional atmosphere while remaining warm and welcoming.

Colour Palette Used in Website Code:

- Primary: Dark Navy Blue (#00012A)
- Secondary: Light Cream (#F9F6F1)
- Accent: Lime Green (#6BD425)
- Neutral: White (#FFFFFF)

Typography:

- Font Family: Arial, Sans-serif
- Large bold headings for titles
- Simple readable paragraph text

Layout Approach:

- Clean spacing and alignment
- Card-based service and review sections
- Image-focused design
- Easy-to-read structure

- Consistent header and footer across all pages

User Experience Features:

- Easy navigation menu
 - Responsive for phones and tablets
 - Fast loading pages
 - Simple contact form
 - Clear service information
 - Consistent branding across all pages
-

6. Technical Requirements

Languages Used:

- HTML5
- CSS3

Features Included:

- Flexbox layouts
- CSS Grid layouts
- Media queries for responsiveness
- Hover effects
- Embedded styling

Optional Future Additions:

- JavaScript booking system
- WhatsApp booking integration
- Google Maps API
- Social media links

- Backend database system
-

7. Timeline and Milestones

Week 1–2:

- Research business needs
- Gather branding ideas
- Plan website pages

Week 3–4:

- Design page layouts
- Choose colour scheme
- Create wireframes

Week 5–6:

- Build HTML page structure
- Add CSS styling
- Create navigation system

Week 7–8:

- Add content and images
- Improve responsiveness
- Create contact page

Week 9:

- Testing on mobile and desktop
- Fix layout bugs

Week 10:

- Final improvements

- Submit completed project
-

8. Budget

Development Costs:

- Website design and coding: R5,000 – R8,000

Domain Registration:

- R100 – R250 per year

Hosting:

- R100 – R300 per month

Maintenance:

- R500 – R1,000 per month

Optional Extras:

- Photography: R1,000 – R3,000
- Paid Advertising: R500 – R2,000

Total Estimated Cost:

R6,000 – R12,000
